

CASE STUDY

CUSTOM MODULAR OFFICE COMPLEX

FOR PHILLIPS HEAVY CIVIL | ANGLETON, TX

Custom modular office complexes delivered to support a relocating construction workforce with ready-to-use space, conference rooms, and team collaboration areas.

CHALLENGE

- Workforce relocating to a new project site
- Office space needed on a tight timeline
- Multiple teams needed space to work together
- Custom conference room layouts needed
- Site requirements needed to be met

SOLUTION

- Delivered 18 modular building floors
- Built three 3-plexes, one 4-plex, and one 5-plex
- Custom floorplans and conference rooms
- Connected office complexes with decks
- Single point of contact throughout the project

RESULTS

- Improved team collaboration
- Employees felt good about where they worked
- Organized space for multiple project teams
- Ready for occupancy on a tight timeline
- Simplified project coordination with one provider

KEY FEATURES

- 18 modular building floors
- Brand-new modular buildings
- Conference room configurations
- Connecting deck systems
- Coffee bars and skirting package

WHY SATELLITE SHELTERS

Satellite Shelters helped Phillips Heavy Civil quickly establish a new office complex for a relocating workforce. By delivering brand-new modular buildings, customized layouts, and dedicated project support, the team had an organized workspace designed around how they operate, while giving employees a place they could feel good about coming to work each day.
