

CASE STUDY

HOUSTON HOSPITAL OFFICE COMPLEX

MCCARTHY BUILDING COMPANIES | TEXAS

Custom modular office complexes delivered to support the construction of Houston's new Harris Health Lyndon B. Johnson Hospital campus, with dedicated space tailored to the needs of builders, owners, and subcontractors.

CHALLENGE

- Support construction of a new \$1 billion hospital
- Meet the needs of multiple project teams
- Unique workspace requirements
- Strict safety and permitting requirements
- Deliver and install on a tight schedule

SOLUTION

- Delivered a doublewide, 5-plex, 7-plex, and 11-plex
- Relocated an 11-plex from a previous project
- Added conference rooms and private offices
- Upgraded owner spaces with premium amenities
- Met all safety and permitting requirements

RESULTS

- Supported multiple project teams
- Dedicated builder and owner spaces
- Met safety and compliance standards
- Successful 11-plex relocation
- Timely delivery and installation

KEY FEATURES

- Relocated 11-plex office complex
- 9 conference rooms
- Additional private offices
- Upgraded coffee bar & premium amenities
- Code-compliant building setup

WHY SATELLITE SHELTERS

Satellite Shelters partnered with McCarthy Building Companies to deliver flexible workspace solutions for a major Houston healthcare construction project. From customized office layouts and connected building configurations to a successful 11-plex relocation, Satellite provided space designed to support the project from start to finish.
